## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, 14-17, 23-24, 29, and 30, drawn to call set up using the use of previously negotiated service parameters, classified in class 370 subclass 329 (Fig. 8).
  - II. Claims 8, 9, and 25, drawn to call setup using an active set identifier, classified in class 455, subclass 452.1 (Fig. 10).
  - III. Claims 10-13 and 26-27, drawn to call setup without paging using pilot strength measurement message, classified in class 455, subclass 458 (Fig. 6).
  - IV. Claims 18-20, drawn to dormant packet data call, classified in class 340, subclass 7.28 (Fig. 12).
  - V. Claims 21 and 22, drawn to preamble transmission, classified in class 370 subclass 335 (Fig. 14).
  - VI. Claim 28, drawn to transmission of an origination message with short data burst information, classified in class 455, subclass 466 (Fig. 9).
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-V and VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method for call setup in a wireless communication system using the use of previously negotiated service parameters which is different from inventions II-VI. See MPEP § 806.05(d).

Art Unit: 2663

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-VI, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Philip Wadsworth/Roberta Young on 9/12/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nittaya Juntima whose telephone number is 571-272-3120. The examiner can normally be reached on Monday through Friday, 8:00 A.M - 5:00 P.M.
